The Perfect Stack **Laundry Center Is Now** Within Your Reach.

LG's groundbreaking new Control Center Laundry

with AdaptAble™ Controls, gives everyone the option to comfortably stack their washer and dryer. Movable controls allow you to relocate the dryer control panel to the bottom of the unit, putting all of the controls in the center of the pair. That means no more stretching to adjust your dryer cycle. If you choose to place your pair side by side in a more conventional configuration, the controls can easily be moved back to the top of the unit.

Thanks to LG, space-saving is no longer a stretch.

Side by Side (shown with optional pedestals) or **Stacked Configurations**

Remote Monitor Ready

LG's Remote Monitoring System makes it easier to keep tabs on your laundry. Simply plug the modem into any outlet in your home and it communicates with the machine to display the time remaining in the cycle. Whether you're putting away groceries or relaxing with

a good book, you'll know how much time is left. Your repeated trips to the laundry room are over.
